### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 61-84 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 39, 40, 42, 43, 47, 51, 52, 54, 55, 59, 63, 64, 66, 67, 70, 74, 75, 77, 78, 81, 85, 86, 88, 89, and 92 of copending application No. 10/430,794 and over claims 18-20, 22-34, 36-48, 50-62 and 64-73 of copending application No. 11/444,672 in view of Hunckler (US 3,877,502).

The claims of 10/430,794 (now patent No. 7,334,975) and 11/444,672 claim the same features as the instant application except for the shaft having the thread at both ends. Hunckler discloses a fastener having a shaft with a thread as both ends (26 and 27). It would have been obvious for the skilled artisan to provide the claimed threads of

10/430,794 and/or 11/444,672 onto both ends of the shaft as disclosed in Hunckler in order to form an improved U-bolt for applications such as those disclosed in Hunckler.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Allowable Subject Matter***

Claims 61-84 would be allowable with the filing of a proper Terminal Disclaimer for at least the same reasons as the claims of 11/444,672 were indicated as allowable.

### ***Response to Remarks***

The crossed through and initialed IDS forms have been included with this office action. While the 17 page IDS has been crossed though, the references cited therein have most likely been considered in review of all the prior art and they simply were not so relevant as to cite. The references on the more focused 3 page IDS have also been considered and initialed to be listed on the patent should this application ever issue.

The double patenting rejection remains since the terminal disclaimer was not approved. Applicant identified the terminal disclaimers by the wrong serial number; should be 10/718,914 not "...194".

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
